

New Radio Chief Once Sober Orator At Coast

VANCOUVER, Sept. 26.—Gentlemen, I say to you now that capitalism must go. Twenty-six years ago, a startling youth, in his teens with a head apparently two sizes too great for his body, marched into Powell street grounds, accompanied by a friend and a soap box. His friend, who was Howe Holland, now chairman of the Vancouver Peace Board, took post beside him, and William Ewart Gladstone Murray mounted the soap box and started to orate. Then Howe Holland would follow him, as like as not on the other side.

William Ewart Gladstone Murray didn't care anything about capitalism or Socialism, but he did want to have some fun and to learn how to speak. He customarily asked the crowd gathered about his soap box to choose the subject and the side they wished him to take. "Get off your shackles, men," he would say, "and would wind up in a peroration which would, as like as not, include several lines of Milton's "Ode to Freedom." Then the whole crowd would march to the nearest place of refreshment.

Proud today in Maple Ridge, Fraser Valley, whose native son he had appointed manager of the Canadian Radio Commission. His father, Paul Murray, was the revered school teacher there for years, and still lives in Pitt Meadows, and William Ewart was born in 1893. He first made his name as a wild youth and a clever exhibition-winner at the King Edward High School, Vancouver, then went to McGill University, a branch of McGill house in what is now Vancouver's city relief station at Cambie and Pender streets.

He made his home on Powell street here, but he had not acquired more knowledge in old moments which he could spare from his other activities than any other student. Head of a debating society, he was a member of the "Young Men's Club," a track team, and a member of the "Young B. C." famous in many directions.

When he went to McGill, Montreal, for the first time, he was in his art, he left behind him a group of admirers. During his stay in Montreal, he was a member of the "Young Men's Club," a track team, and a member of the "Young B. C." famous in many directions.

Mr. Justice Mitchell Issues Statement of Board's Activities

Mr. Justice C. R. Mitchell, chairman of the Alberta Board of Review under the Farmers' Creditors Arrangement Act today issued the following statement regarding the activity of the board:

"The Board of Review has heard 41 appeals sitting at St. Paul and Wetaskiwin during the past week. It has also heard appeals at other places at these centres. It is to be noted that the board is not a court of law, but a body of men who are to be heard in the board will hear appeals at Wetaskiwin and at St. Paul, and at other places.

The board is assisted in dealing with the appeals by government inspectors reports on farmers' land and other holdings which are of advantage in arriving at the appropriate order. Extensions are granted on a reduced basis. Extensions

2 Paddlers From New York Reach Fort McMurray

COPYRIGHT, 1936, BY EDMONTON BULLETIN
REPRODUCTION OF ANY PART FORBIDDEN

McMURRAY, Sept. 26.—Blazing a water trail from New York City to Nome, Alaska, by canoe, two intrepid young American adventurers crossed the Saskatchewan border and paddled their craft down the Peace River to Fort McMurray Friday afternoon. They are Seldon P. Taylor and Geoffrey W. Pope, who left New York April 25.

The voyagers crossed the Canadian line at Montreal and pushed their way north and west, along the Great Lakes chain, from Winnipeg their route lay along the straits of lakes and rivers in Saskatchewan and Manitoba to connect with the Clearwater, which flows into the Athabasca.

HEAVILY BEARDED
Heavily bearded and their hair hanging over short collars, the youthful adventurers wore dark-colored overalls and heavy sweaters.

Touching at McMurray only long enough to replenish their depleted food and camping supplies and attend to their mail, Pope and Taylor pushed on down the Athabasca river, expecting to reach Chipewyan within a few days.

AMES MILLER, WELL-KNOWN, DIES IN CITY

Popular Member Civic Assessor's Department, Was War Veteran

Well known in civic, cricket, Masonic and returned soldier circles in Edmonton, and also well known in the downtown business and financial sections, Augustus Ames Miller, 65, of 1612 17th avenue, died in University hospital early on Saturday morning after a lengthy illness.

Mr. Miller had been in the past fifteen years a member of the city service, having joined the assessor's department in 1911. He was married to Mrs. Miller, and had three children.

REPRODUCTION OF ANY PART FORBIDDEN

Wild West stories of young boys who went adventuring and came home with silver spurs and their own stack of cash, stirred the rover's spirit in 13-year-old Marshall Montgomery, 10271 97 street, son of Mr. and Mrs. T. J. Montgomery.

The lure of far places called him, as he walked in the mellow autumn sun on the main street of the city, when he overheard a group of men talking of work to be had in Calgary.

GREEN PASTURES
The slim, tow-headed youngster loaded for the green pastures but returned to his home with a police escort late Friday night, a worldly-wise and somewhat disillusioned youth.

"I was walking to Norwood school and I heard some men talking about work to be had in Calgary," he thought I might get some, he said.

"What kind of work did you expect to get?" a reporter asked. "I thought I could get a job at a filling station, waiting car."

"How did you get to Calgary?" he was asked. "I went on the bus. I had some money, just enough for my fare. When I got to Calgary it was late at night and I didn't have any money, so I asked a man whose name was Marshall Montgomery."

France Cushions National Against Devalued Franc

WASHINGTON, Sept. 26.—Secretary of the United States treasury, Henry Morgenthau, today announced that the United States treasury will cushion the price of the pound sterling and that he had effected the effect of this action by the use of the United States treasury's stabilization fund.

NEW YORK, Sept. 26.—Canadian dollars were at a discount of between 4 and 5 per cent in relation to United States funds, the foreign exchange department of Canadian banks here reported today.

These were official quotations based on actual dealings. It was stated, but little later, that the Dominion funds closed at a premium of 1-54 of one per cent last night.

LONDON, Sept. 26.—The British foreign exchange market suspended transactions today in preparation for adjustment of the pound.

PARIS, Sept. 26.—The French government today drew up a series of measures to carry out devaluation of the franc and to cushion the country against any possible adverse effects of the monetary move.

Fashions in usury Ancient and Modern

This is the first of a series of articles by Mr. Couper which will be run in the Edmonton Bulletin, Saturday editions, dealing with usury from ancient times down to our own day. Watch for them exclusively in the Edmonton Bulletin every Saturday.—EDITOR.

By J. S. COWPER

Fashions have changed in usury since man began to acquire wealth—and are ripe now for another change—but usury has been with us since the dawn of history. Hence the scope of these articles on "Usury—Ancient and Modern."

Usury in its earlier sense was the name applied to the loan taken for any loan of good or worse. It is so used in the King James version of the Bible where Moses and the Old Testament prophets had a good deal to say about the subject. None of it was flattering to the usurer.

In latter days the practice of usury—the accepting of a premium or increase for a loan, to use the early Webster definition—became a highly respectable business. In the older countries the financier was given a position of honor and dignity second only to that accorded the landed aristocracy who held their honor in the community because they kept their wealth in the renting of land to those who used it. Beneath these, in descending scales of respect were the

Quebec Man Will Aid In Radio Work

DR. A. FRIGON

Major W. E. Gladstone Murray, Canadian-born executive of the British Broadcasting Corporation, has been named the position of general manager of the Canadian Radio Commission, by the board of governors, Dr. Augustin Frigon, chairman of the Quebec Electricity Commission, has been named as assistant general manager. Salaries are provided at \$12,000 and \$10,000 per year respectively.

Continued on Page 2, Col. 3

New Appointee To Hold Down Two Positions

MONTREAL, Sept. 26.—Augustin Frigon, newly appointed assistant general manager of the Canadian Radio Commission, said today he would remain principal of L'Espresso Polytechnique of Montreal.

Duties of the two positions, he said, would not conflict.

Wheat Situation Is Soundest In Years: High Prices Sighted

HIGHER grain prices are in the offing, and men engaged in the grain trade say it will be the most soundest since 1910, according to Bruce McBean, well-known Winnipeg grain man.

"The wheat situation is the soundest it has been in years, and if anything, perhaps, Argentine or Australia, prices will go so high that instead of protecting the farmer, the government will be satiated to compel government to buy the grain, the farmers of bread," said Mr. McBean.

"Here, in a nutshell, is our position as regards wheat in western Canada," he said. "We have an estimated crop of 27,000,000 bushels of which 9,000,000 bushels have been delivered to date. We require for feed and seed 18,000,000 bushels, leaving a balance of 8,000,000 bushels."

BIG CARRY OVER
To this may be added some 5,000,000 bushels carried over from last year, and the total carry over at the end of the crop year. That is, there are now 13,000,000 bushels of wheat in storage, and about 1,000,000 bushels of barley and 500,000 bushels of oats.

Cash Forgotten In Bank Proves Unexpected Aid

"We're in the Money" is the song that is being sung by the Kellys of 802 Loyalist avenue, Seattle, who have been reported as a husband and musician of Edmonton.

The grave was splashed over him after Erick Albusch, a member of the good turn club, found the body of the man in the list of the unclaimed money in the Bank of Montreal's list published on March 26, 1935.

The item was clipped and put away for safe keeping, so safely that it was not located again until six weeks ago.

Mr. Kelly had left \$10,000 in the bank, and he had long forgotten it. He had accounted to \$1041 with compound interest.

Mr. Kelly was written to by Albusch expressing his thanks for the good turn club, and his appreciation of the service of the good turn club in publishing the list. The money was used, he said, as was the money which was used as a musician was scarce.

MAYOR CONFERS WITH GARDNER

Mayor Joseph A. Clarke, C.K. conferred with Hon. James G. Gardner, Minister of Agriculture, Saturday morning, in connection with the city securing a substantial loan from the Dominion by the use of the money which was used for relief purposes.

It is known that the city is desirous of raising at least \$200,000 for this purpose. At present the money is being raised by the sale of bonds in the latter part of the year, and the money will be used for the purpose of the conference was not known.

City Controller J. Hodgson and Frank Barakovich, city treasurer, were also attending the meeting with the mayor.

Coup De Roi Wins Newbury Cup Race

NEWBURY, England, Sept. 26.—Sir Percy Loraine, 5th Earl of Strathmore, won the Newbury Autumn Cup with Lady Nettle's Jack, a two-year-old colt, in a race which was one of the most exciting of the season.

Coup De Roi, starting at 100 to 1, finished two lengths in front, Jack Ter, held at the same odds, was 1½ lengths in front of Black Dog, and 4 to 1.

RICH CONCLAVE REPORT FAVORS BIRTH CONTROL

**Drought Needs in West
Told By Mission
Worker**

OTTAWA, Sept. 26.—Drought conditions in western Canada call for help from the church in the east. Miss Rheba Hern, of Peebles, Sask., a worker in the home mission field, told the seventh general council of the United Church of Canada here last night. With many of the people depressed by poor crops or by no crops at all, the call for spiritual consolation and assistance was urgent.

Birth control and sterilization were formally before the council. With the presentation of J. W. Ernest Thomas of Toronto, a commission report on this subject, the question became a live topic in the council's deliberations.

URGENT CONCILIES

After long investigation, according to report, the commission gave general approval to certain plans behind birth control and sterilization of the mentally unfit. Establishment of birth control clinics where necessary information could be given by those considering practicing it, was recommended. These clinics would be under public control and supervised according to provincial health standards.

It is expected that the commission recommended legalizing the minimum operation yielding sterilization, and statutes making adequate provisions for regulation and control of every stage of the process.

RAILWAY PASSES

A memorial was received from the Algoma presbytery urging inquiry into alleged discrimination in respect to income taxes and passes on Canadian railways as between Catholic priests and Protestant ministers. The general council was asked to take "prompt action" in investigating these alleged discriminations, and if they exist, to have them removed.

The first woman to present a report to the council mentioned the platform today. The report of the Women's Missionary Society, was presented by Miss Winifred Thompson, secretary, who said \$185 was memorable inasmuch as it was the first year 1929 when the society exceeded that of the preceding year.

CHARGE AGAINST EXECUTED MEN'S SISTER DROPPED

**Brothers Were Hanged
During Week—Mother
In Penitentiary**

MONCTON, N.B., Sept. 26.—Information against Frances Bannister, charged with abducting Betty Lake, was withdrawn when she appeared in juvenile court yesterday.

The charge, sequel to the January murder of Philip Lake, his common-law wife and the couple's infant son, was laid a week ago. At that time the girl was remanded to last Tuesday, the day before her brothers, Arthur and Daniel, were hanged for the lack-lustre tragedy at Pacific Junction.

The girl's mother, Mrs. May Bannister, is serving a penitentiary term for harboring the surviving Lake child through whom the crown charged at the Bannister boy trials, she hoped to extort money from two Moncton men with whom she had been intimate. Both men had been told they were the father of a baby which Mrs. Bannister said she bore to her husband, to back up her plea for funds, the crown charged. She intended to marry the infant Betty Lake as her own child.

Petty Thieves On Overnight Spurge

A suitcase containing bureau values at \$60, the property of W. McManis, 10488 85 avenue, a salesman, was reported stolen from a residence at 9448 76 avenue, Friday afternoon. Thieves who broke into a house occupied by Yung Lee, market gardener, situated at 81 avenue and 109 street, last Friday escaped with \$20 in cash after completely ransacking the premises.

Dave Spital, manager of Spital's Meat Market, 10012 101A avenue, reported the theft of a scale from the store during the night.

A purse containing several bills and small cash, the property of Mrs. J. Dury, 1018 108 street, was reported stolen from her home Friday evening.

D. Harvey, 1138 83 street, reported the theft of a plate and silver level, from his home Friday afternoon. A car rug was reported stolen, from a car owned by T. J. Cox, 11114 81 avenue, while parked in front of his residence Friday evening.

Mounted Hunt Gang HALIFAX, N.S., Sept. 26.—Royal Canadian Mounted Police here, up- tided that an international, avaricious smuggling ring was invading Nova Scotia, having instituted a search on suspicious tourists entering the province. The ring was said to be using women to smuggle drugs.

Killed On Roads

LONDON, Sept. 26.—Nine, 2,990 killed and 106,000 hurt on the highways of the United Kingdom in 36 weeks, Transport Minister Here Beilish is concentrating on a full program to reduce the toll.

A. BISSET TO HEAD C.G.A. COMING YEAR

**Will Support City Election
Candidates—Broader
Taxation Sought**

Decision to nominate or endorse candidates for the mayoralty, aldermanic and school board vacancies in the municipal election was made at a meeting of the Civic Government Association held Friday evening in the Lecture Hall, Public Library, under the chairmanship of G. W. Hattitt.

The committee comprised of the newly-elected officers and members of the association selected by these officers will pick a slate of candidates to be submitted to the general membership for approval.

"MIKE" VICE-PRESIDENT

The unanimous choice of the meeting for the presidency of the association was A. Bisset, south side lawyer and former alderman elected on the C.G.A. ticket. John Michaels was elected first vice-president. The office of secretary-treasurer will be filled by choice of the three elected officers.

Aldermen J. T. McCreath, J. W. Fry and Miss J. Macdonald, who are retiring from council this year, gave an account of their activities on that body during the past two years.

McCreath urged that men pledged to seeking a broader base of taxation, the reduction of interest charges and the transferring of relief burdens to superior government should only be endorsed for the coming election by the association. He advocated a housing scheme to give lower rentals to the workers should be undertaken by the federal government.

He was of the opinion that if the provincial government did not give sympathetic hearing to the plea for a broader basis of taxation, that the city might well ask the government to pay taxes on government property within the city. It was impossible for real property to continue to carry the major portion of the city's tax load, he concluded.

TO MEET WISHES

High J. Macdonald expressed the opinion that if properly approached bond-holders would meet wishes of the city in interest reductions. He thought the city should consider the bond-holder would be to keep intact his principal. This could only be done, he contended, through lowering interest rate to a point which the municipality could pay. He strongly advocated the running of a majority, five aldermanic and a full slate for the school board.

Alderman Fry expressed the opinion the city was in worse shape now than at any time in its history. Relief burdens could not be carried much longer by municipalities without default, he said. He considered negotiations should be started immediately with the bond-holders seeking reduction in interest.

He also considered enquiry should be made as to why eastern municipalities were able to get two and three per cent loans when western bodies could not get money at any price. He was critical of the policy of purchase of Edmonton bonds by the sinking fund board expressing the opinion that the board had a specific duty to perform and that it was time it discharged its financial current obligations.

J. M. Douglas, former mayor, was emphatic that the C.G.A. could elect a majority to the council this year if regular candidates, backed by intensive organization, were placed in the field. He doubted if the electors were prepared to support labor, adding that they were nearly sick of the present administration, which he said was not working for the best interests of the city.

Garrulous Churchmen Arouse Ire

OTTAWA, Sept. 26.—Talking during prayers, in the lobby of Chalmers church, by commissioners to the United church seventh general council drew down condemnation of Acting Moderator Richard Roberts yesterday.

"I think the conduct of the commissioners outside during prayers is disgraceful," said Mr. Roberts. He said, "though the commissioners should attend prayers, but if not, they should keep silent."

Applause followed his statement.

300 RETAILERS SIGN COVENANT

More than 300 retailers have signed Social Credit covenants to participate in the Social Credit plan in this province, Clayton Adams, in charge of the registration, stated on Saturday.

He declared that individuals are signing at the rate of 300 a day. As registration closes on Sept. 30 until next June, Mr. Adams stated that offices for registering in the Jackson building, Jasper avenue east, would remain open until 9 p.m. on Monday, Tuesday and Wednesday.

Preferred Whipping

BURNHAMTHORPE, Ont., Sept. 26.—The magistrates, who rejected the plea of a 16-year-old boy, said he would rather have the "barrel" or the "cat" than go to a reformatory for taking a car without permission.

It is said males make the best model pupils because they are more placid, while females try to concentrate anomalously on the lesson instead of relaxing and absorbing calmly.

From East and West Come Prosperity News Wisps

QUEBEC—More than 2,000 men will be employed in new lumber camps being opened in St. Raymond de Portneuf district by Consolidated Paper Mills. Commencement of \$600,000.

LETHBRIDGE—Garment factory will be established in this wool-growing district by Logan, Garment Company of Logan, Utah.

LONDON, Ont.—Luscombe Aircraft Corporation of the United States preparing plans for establishment of \$100,000 branch factory here.

OTTAWA—Cap loadings in Canada reached highest total in five years in the week ended September 19.

VANCOUVER—New interests headed by H. B. MacMillan of Vancouver have acquired the Alberta-Pacific lumber mill and limits for about \$4,000,000 and will expand operations.

HAMILTON, Ont.—Steel Company of Canada announced construction of new 150-ton open hearth furnace.

WINNIPEG—Winnipeg firms reporting to the Industrial Development Board announced increase of output in last year by average of 18 per cent over the previous year.

Yes, This Is Regular Auto

For \$400 you can buy this little English automobile. It is eight feet long, 3 feet 6 inches wide, and has a 2½ horsepower engine. The gas consumption is 40 miles to the gallon. Its maximum speed is 45 miles per hour, and it can be garaged in the back yard. It is pictured alongside a standard sized automobile in London.

It required 40 years to a day to build the Mormon Temple in Salt Lake City. There are 30,000 street traders, or peddlers, in London. Of this office normally employs an average of 4000 persons.

FRENCH MONEY CHANGE FINDS OTTAWA FAVOR

**"Highly Constructive
Move" Says Government
Official**

OTTAWA, Sept. 26.—Government officials here considered France's proposal for devaluation of the franc as a "highly constructive move, tending to stabilize currencies." Its effect would be to stimulate international trade and lending operations.

Pending receipt of full information on the matter, officials here were hesitant to discuss details. What the Canadian dollar would do was difficult to say, but probabilities were there would be little change as between the dollar and sterling.

DEFENDS ON U.S.

"Our currency will be affected by what action takes place between the United States dollar and sterling," said one official last night, "and it will play right along with whatever they do. Sterling may tend to drop, but it is hard to say how far, in terms of the dollar. It has already declined slightly within the past few days."

It was not believed the devaluation of the franc would have any effect on the price of gold, except for the fact that it would cause a change unlikely to be any change in the United States dollar. The determining factor in the future, said officials, would be the willingness of the United States to continue buying gold at the price of \$35 an ounce.

GAS HEATED HOMES MANUFACTURE THEIR OWN WEATHER

reflects the HEALTH of Summer Sunshine

GLORIOUS summer months of healthful "outdoor living" have slipped on into Autumn. Chilly mornings, with children hurrying away to school again, remind us that Old Man Winter is on his way to greet us. The long winter months of "indoor living" are soon to start. As storm doors and windows replace the screens in preparation for winter and furnaces swing into action, there comes to many homes a fear and anxiety about the health of parents and children alike during the trying shut-in months.

Perhaps you are wondering if there isn't a way to remove all the cause for worry... a way to enjoy June Day comfort—the health of summer sunshine inside your home all year round. The answer is GAS—the modern fuel. CLEAN HEAT... clean as summer sunshine.

Controlled Heat

Gas Heat gives you positive control over the weather inside your home. The even, steady temperature maintained by Gas is a safeguard against colds, flu, and the typical winter ailments. With the thermostatic control you don't have to even think about it. You have no fuel dust, ashes or soot to contend with. Gas, the clean Heat radiates the health of summer sunshine.

Are You Taking Advantage of the

"HOUSE HEATING GAS RATE?"

We will gladly prepare a statement for your home showing how much the "House Heating Rate" will save you.

TELEPHONE 2321

Free Home Survey

Complete information about heating your home with Gas is yours for the asking. Your Gas Company will make a survey of your heating requirements—give you a complete estimate and explain how easily you can have Gas Heat through a convenient Budget Plan. The approach of freeze-up time makes it important to decide on Gas Heat now. Your application for Gas Service should be placed at once in order to secure the low summer rate. Telephone 2321 or call at the Gas Company's office.

Edmonton's GAS Company

FREDRIC MARCH RETURNING FOR NEW STAR ROLE

Will Take Leading Part in Picture "Saint in New York"

Fredric March, now re-starting on the screen with "Saint in New York," is slated to return to RKO Radio for the leading role in "Saint in New York" according to recent announcement.

"Saint in New York" is a romantic mystery drama, based on the novel of the same name by Leslie Charteris. It will be a Metro-Goldwyn-Mayer production and John Cromwell has been signed to direct. Anthony Veiller is writing the story.

POPULARITY AT PEAK
With "Mary of Scotland" playing to record audiences, and "Anthony Adverse" and "The Road to Glory" scheduled for early release, March's popularity is at flood peak. His selection as the dashing, modern Robin Hood type here of "Saint in New York" is considered ideal casting.

Cromwell's assignment to direct the picture brings him back to the helm of many of his biggest successes, notably the first July 1936 starring vehicle, "I Dream Too Much."

Arline Judge Sets Youthful Fashions

The "Vallant Is the Word For Carrie," soon to be released, Arline Judge presents a parade of youthful fashions for the younger set's fall and winter wardrobe. One very useful costume is a beige turtleneck. It consists of a pleated skirt of this woolen material, attached to dark brown blouse of satin. Over this a coat effect is worn, with brown buttons and a wide shawl collar of blue fox. Arline wears a pair of beige felt trimmed in dark brown grosgrain and carries a bag and gloves of dark brown.

Singer's Gown Wins Audience Approval

Glady's Swarthout's gown for the Stokowski concert at the Hollywood Bowl created a buzz of style comment. Travis Banton designed it, adding a bit of inspiration from "Champagne Waltz" and chose five shades of vivid red chiffon for the gown. Among the definite shades were coral, flame, valiant red and crimson. Floating panels of red chiffon draped from a waistline which was fastened with blue chiffon gave a similar trim which outlined the neckline. Miss Swarthout wore many colored stinnia at the base of the neckline in front.

Realism

Many of the scenes of "Without Orders," new drama of commercial flying, were filmed aboard a modern transport plane at a large airport near Hollywood to give the picture authentic realism. Robert Armstrong and Sally Eilers have the featured roles.

Caricatures

John Cardinale, cast as Simon Girty in "Dusty Boone," once worked his way from New York to the West Coast by sketching and selling caricatures of men and women he met en route.

Odd Egg

One of the strangest requests ever made of a studio property department was presented recently to Darrell Zivlers, when he was asked to create a European egg scene for a scene in the Ann Sothern picture, "Bayou Road." "Smashed Girl in Town." Silvers found one.

Big Film Problem

It was necessary to build half a mile of bridges and to divert Malibu Creek in the Santa Monica mountains to get 25 tons of equipment into the valleys in film scenes from Paramount's "The Jungle Princess," featuring Dorothy Lamour and Ray Milland.

Fine Double Feature Presentation Booked For Rialto Theatre

Called Too Young For Chorus Girl

Studded with a star-bright cast including Melvyn Douglas, Mary Astor, Edith Fellows and Jackie Moran, a hitting comedy-romance, "And So They Were Married," which makes its local bow at the Rialto theatre today, comes in the form of a double feature with "His Heart's." It recounts the up-to-date experiences of a college male and his woman-hating 11-year-old son who is marooned in a mountain resort in the company of a lively maid who believes men are not only annoying but totally unnecessary. Also present is the woman's 18-year-old daughter, a fiery girl who is more spirited than her mother in her aversion to the male species.

ON VACATION

Both mother and daughter and father and son have come to this beautiful winter resort for a Christmas vacation.

A snow-kissed scene the road leading to the resort, and Miss Astor Douglas and their respective offspring are the only guests at the Douglas opening of the mountain lodge. Right in the magnificent mountains, romance blossoms and finally Douglas proposes to Mary. However, the children determine to break up the affair. They are unimpressed until Douglas happens to break Mary's young daughter by mistake. "And So They Were Married" is the engagement, feeling that she could tolerate a husband given to spanking her girl.

PARENTS UNHAPPY

At home again in town, the children discover their parents are unhappy. They realize finally that there is only one thing to do but to tell their parents together again. "And So They Were Married" is the engagement, feeling that she could tolerate a husband given to spanking her girl.

SCOTLED MURDERS

Scooped mid his orchard and beer in a house he isn't left in scenes here. Rex Stout's famous detective character, Nora Wolfe, appears in "Meet Nero Wolfe," which is the added feature on the day bill at the Rialto. Much like a master chemist, Wolfe moves in a beer bottle capsule, lawless in a game of murder and mystery. On the screen, the portly, pawkish criminologist is portrayed by Edward Arnold, with Lucien Ballard in the role of Archie Goodwin, Wolfe's chief house and private investigator.

WOLFE CALLED IN

Wolfe is called in when Professor Barlow dies on the golf links, presumably of heart failure. The following day a Carlo Marzetta, a multimillionaire, is found dead of the same cause. Wolfe learns that both died of murder—and by the same hand. The third murder, by the title of the first, is the death of a snake, occurs during Wolfe's extensive investigation.

Do Long Dance

The principal dance number which Velez and Yolanda do in their current picture, "Champagne Waltz," lasts exactly three minutes and fourteen seconds.

Hidden Charms

The prettiest pair of dancing limbs in all Hollywood are said to be those of Ida Lupino, currently giving comedy relief for "Wedding Present."

Likes Cutting

Though entangled with Gary Cooper in Cecil B. DeMille's production, "The Plainsman," Jean Cecil B. DeMille's "The Plainsman," co-starring Gary Cooper and Jean Arthur.

Double Feature Show

MARY ASTOR Scene From New Film

Above is Mary Astor who co-stars with Melvyn Douglas in "And So They Were Married," the feature attraction at the Rialto theatre opening today for a week's engagement. From left to right, are Russell Hardin, Edward Arnold and Victor Jory in a scene from "Meet Nero Wolfe," the second attraction on the double feature bill. Lionel Standish also has a major role in the portrayal of Rex Stout's famous detective character.

Wide Open Spaces

Many scenes from the production "The Jungle Princess," featuring Dorothy Lamour and Ray Milland, were made in the forests of an almost inaccessible canyon in the Santa Monica mountains, 40 miles from Hollywood.

Seven For Comedy

A total of seven gag writers, in addition to the studio scenario writers, are writing on "The Big Broadcast of 1937." Four writers are writing lines for Burns and Allen, two for Jack Benny, and one for Bob Burns.

Sign Grid Expert

Jeff Cravath, former U.S.C. All-American center and later line coach under Howard Jones, today was signed as technical adviser on the football sequences of "Rose Bowl," which is now in production under the direction of Charles Barton.

Ocean Of Bulbs

More than 2,000 photographic flashlight bulbs were needed during the filming of "Murder With Pictures," in which Lew Ayres, Paul Kelly and Benny Baker play the roles of newspaper cameramen.

Agnes Gets Role

Lew Ayres was signed for the leading role in "Midway Girl," to enter production next week under the direction of George Archibald.

STUDIOS SEEK NEW SETTINGS FOR PICTURES

Pays to Identify Feature Photoplay With Some Actual Locality

HOLLYWOOD, Sept. 26.—It's your city glamorous and colorful! Does it have that certain indefinable something that sets it apart and gives it individuality?

It is this indefinable something, sophisticated, bohemian! It is a background of courage and heroism! It is a background of the past, or of vividly dramatic events!

CELEBRATED IN SONG?

Has it been celebrated in song and song and song? Have its native sons and daughters gone forth into the world to make names for themselves as individuals prominent in their chosen fields? Or is it merely notable for its utter conventionalism, typifying, perhaps, several scores of other communities the nation over?

Whatever the answer, it shall some day be chosen to be immortalized in the screen. It has served for posterity as it were, by the way.

FINANCES BOX OFFICE

For the film moguls have long since concluded that, whenever possible, it enhances the box office value of a feature photoplay—or at least, it does not hurt it—identify it with some actual locality.

So when you visit your favorite motion picture theatre you see Gary Cooper, Charles Lombard, Joan Crawford, Robert Montgomery, Ray Francis, Warner Baxter, Claudette Colbert or any others of the score or so of picture stars, always carrying a fictional story laid within the municipal jurisdiction of your hometown, with recognizable scenes of its skyline or other landmarks suitably interpreted for the sake of authenticity. The story itself may, and is may even be based on some event which actually happened in the city.

GENTLE 'RIBBING'

Just as an example of these contrived scenes, Kansas, is the supposed scene for Charlie Ruggles and Mary Boland's new domestic comedy, "Never Never Land." Ruggles was frankly chosen as the locale because it is eminently respectable. His civic purity comes in for a gentle "ribbing" in the story. By contrast, the recent film, "San Francisco," graphically depicted the notorious fact that all but destroyed of the city by the Golden Gate in 1906.

PROVIDED MOST SCENES

Manhattan and its boroughs have without question provided the up-to-date scenes for more photoplays, and in many cases their titles, than any other city in the world. San Francisco ranks second.

It is a job in this connection that the movie colony itself, and Los Angeles and its environs, are almost never used as the detailed locale of motion pictures, except that, in the case of the latter, it is laid in on about-the-odds and cannot be localized elsewhere.

Lucky Herbert

Herbert Marshall has three of the most popular actresses appreciate him in "Daddy and I," which is Anne Shirley, Gladys George, Gertrude Michael and Margot Grahame.

Sidetracked

Lee Tracy, co-starring with Gloria Stuart in "General Dill," started to study medicine, was sidetracked by the World War and became an actor after he was wounded out of the service.

Mockery

A mocking bird upset the filming of outdoor scenes of "Mummy's Boys," released Wheeler and Wolcott, by constantly imitating the assistant director's whistle.

Two Old Salams

Two Salams, instead of one, are being built for Frank Lloyd's production, "Bliss of Salem," to conform with historical data. In 1692 there were Salem Village, on the northeast of Massachusetts, and Salem Town, a few miles inland.

Singing Star Seen in Her Latest Role

Clare Gable, Jeanette MacDonald From New Romantic Team

Due to the vast crowds of the singing star who have as yet been unable to see "San Francisco," featuring Clare Gable, Jeanette MacDonald and Spencer Tracy, Manager George Fendley, of the Empress theatre, has made arrangements to hold this great picture over for another full week.

NEW ROMANTIC TEAM

A new and truly romantic team is brought to the screen in Metro-Goldwyn-Mayer's "San Francisco" in Clare Gable and Jeanette MacDonald.

For the first time the rugged, hard-boiled, jawed and sporty Gable and the lovely Miss MacDonald with the voice that thrills, are brought together, with Spencer Tracy, as a priest, sharing stellar honors.

ROUGH, TOUGH TYPE

"San Francisco" has drama, love interest, comedy and song. Gable has the rough and tough type of role in which his screen popularity has been built. Miss MacDonald has the ideal part to give her opportunity to sing and when she sings there is a reason for her singing for her song is a part of the plot.

The Queen Mary, New British liner, has four of the largest propellers ever constructed. They each weigh 30 tons.

Hollywood Gossip

INTIMATE GLIMPSES AND INSIDE STUFF ON THE MOVIE COLONY

By PAUL HARRISON

SHORT TAKES: Actors have to provide their own wardrobe for films, but studios buy clothes for actresses. So the company that went to Canada to shoot "Reunion" with the Dionne quints, took along 30 each of hats, bonnets, dresses.

One actress is saving her diary regardless of the example of the Astor case. But she's heading east.

WAS STOCK BOY IN DIME STORE.

WEST COAST STAGE: ROBERT BARNETT, SCREEN CONTRACT.

VEGETARIAN: SUNDAY OF THE WEEK, BUT EAT B.P. STICK ON SUNDAY.

MICHAEL WHALEN: WEIGH 6 FEET 2 INCHES, WEIGHT, 170 POUNDS, GOWN HANG, BLUE EYES, GOWN MATCHES, SHOCKS, JUNE 30, 1936, CALIFORNIA, LOS ANGELES, NATION'S FINEST, SCORES 10-0.

entry: "Ladies and gentlemen of the jury, please take notice of the fact that a great and silent day, when now a big player when he has a job in all, was asked what he'd do if he could earn another fortune. He said he'd have the benches upholstered in all the easting offices."

Hollywood Parties No Longer Wild--Just Slightly Insane

High above the Pacific breakers, Dee Le Nore, Radio-Film Player, basks in the sun during a day off from the studio.

HOLLYWOOD parties—you've heard so much about them, they are probably the strangest in the land.

But they aren't the wild, gin-drinking orgies that have been portrayed in fiction and supposedly factual articles.

Hollywood has its share of those, just as has any other city in the country, but they are the exception, not the rule.

There is no typical Hollywood party, unless you can call the common quality of varying degrees of untidiness typical.

For example, Carole Lombard gave a party at the fun house on the amusement pier at Venice.

Cal. Everyone dressed in play suits and had a whole of a time on the slides, barrels and other devices in the house.

Another party was given at high noon, to which every one came in formal dress.

Imagine your embarrassment if, near the end of a party, you should hear a record played for the benefit of the group, repeating a conversation you had with a dashing blond over in one corner of the room when no one else was near.

It became a Hollywood fad to have recording devices concealed at strategic spots throughout the house during every party, until everyone finally began to so wary it was impossible to get anyone to talk about anything but the weather.

Gags make Hollywood parties. The crazier the gag, the better the party is.

Codfish Balls Round Out Hearty Breakfasts

By MARY E. DAGUE

Do you make a real occasion of Sunday breakfast? For most of us it is the only time in the week that we eat in quiet and peace without the thought of hurrying to get to the office on time, getting the children off to school or making train for the city.

You should try to vary the routine of your breakfast by making something out of the ordinary for Sunday breakfast. If you are a housewife, and have dinner at noon on

Add the codfish to the pot with the beaten egg and pepper and mix well. Then form the mixture into 8 small balls. Drop in deep hot fat until nicely browned on all sides. Drain on absorbent paper to remove excess fat.

The simplest way to prepare tartar sauce is to mix some fish sauce with pickle with mayonnaise.

Monday's Menu
BREAKFAST: Grapefruit, cereal

your breakfast must, or possibly be, a breakfast. However, if your Sunday dinner is to be a party evening or a party afternoon make Brunch (breakfast-lunch) a more substantial meal. Here are some suggestions for Sunday morning:

I

Heavy-dew salad or grapefruit, cereal with cream, Boston codfish cakes with bacon and tartar sauce, cold pineapple juice, cereal with cream, eggs baked in cream, corned, coffee.

II

Cold pineapple juice, cereal with cream, eggs baked in cream, corned, coffee.

III

Icy cold minned Italian prunes, cereal with cream, griddle cakes with fried maple sausage, iced honey-tout, coffee.

Here's a famous Boston recipe for codfish cakes or balls. They are known in London. These light cakes can be served for breakfast, luncheon or Sunday lunch suppers and are sure to be popular.

LIGHT BOSTON CODFISH BALLS

With cream, Boston codfish cakes with bacon and tartar sauce, cold coffee.

LUNCHEON: Asparagus
poached chilled apple sauce, carrot halves, egglet apple sauce, spiced drop cakes, milk, coffee.

DINNER: Broiled beef—glaced appetizer, shrimping potatoes, onions, jellyed fruit salad, crackers, cheese, coffee.

What To Do

Cheek Your Knowledge

How old is King Edward VIII's grandson?

How much larger is the planet Jupiter than Earth?

Where is the Northwest Passage?

Correct this sentence: "Robert Kennedy was here!"

What is the name of Whom? Who's famous steinboast?

Forty-two years old. He was born June 26.

Larger than about eighty-five times larger than earth.

The Arctic Ocean.

"He was here."

Who's famous steinboast?

For those terrible moments when you are unfortunately had an accident at the table, the greatest good thing that can happen to you is the greatest asset a good stoic has: the ability to keep your cool. Not everybody can be so sure of themselves. But here are a few tips to help you handle such bad time. If the accident is slight or minor, do not panic. Take a deep breath, never attempt to retrieve anything from the incident. If the accident is present and the article may be picked up inconspicuously, do not make a fuss. If it is a large spill, get a glass of water or a cup of coffee, or coffee, or coffee, or coffee. But do not be too proud to apply your napkin, or the server will do it for you, and try to smile. And the tactful hostess will divert attention away from the accident by changing the course of conversation.

First Ice Caves

VICTORIA, Sept. 28—Los Angeles Times.—The first ice caves discovered by the British Royal Geographical Society were found by discovering the first ice cave in the world.

PRIMITIVE MAN LEARNED VALUE OF WATER PLAN

History of Plumbing Goes Back Thousands of Years to Cave Men

In this modern day, house-holders take their home plumbing for granted. Few realize that it is a convenience first invented thousands of years ago by the Romans—famed for their exquisite public baths. As a matter of fact, the history of this utility goes back even farther than that. Primitive man knew the value of water, and he knew that he had to carry water from streams to his cave door. At the dawn of history our ancestors lived in tree tops or rude caves. When things were done down by brooks and streams to the cave, they had to dig in the ground to get water. In time some ingenious individual learned to lead water where they wanted it through mud or sand. Still greater intelligence led to the use of a fallen hollow tree—probably the first water pipe.

WATER SYSTEMS
With the passage of thousands of years our ancestors learned to build cities and know the conveniences of water systems. Centres of population sprang up in localities where water was plentiful, and where for commercial, strategic or other reasons a water course, great expediences of labor and treasure were made to conduct water to the distant city from the springs, lakes or water courses. It is known that in the Egyptian pharaoh, Cheops, it was found this pipe was used to convey water to the royal bathing pool.

Copper piping was known 5500 years ago. A piece of this piping was unearthed several years ago at Ghizeh, in the pyramid of the Egyptian pharaoh, Cheops. It is known that this pipe was used to convey water to the royal bathing pool.

ROMAN BATHS
The ancient Romans were the greatest lovers of the bath. The bath was a part of their daily life. The bath was a place of relaxation and social life. The bath was a place where people could relax and socialize. The bath was a place where people could relax and socialize.

NOTED GUIDE OF ROCKIES PASSES

JASPER, Sept. 25—George E. Thompson, 71, former grain trader, died at his home here Friday. He was president of the Montreal Corn Exchange, in 1908. He was born in Montreal.

Modern Plans Submitted to Housing Competition

Above is shown one of the plans submitted to the recent Edmonton Housing competition which was entered by Lorne E. Marshall, M.B.A.C. of Montreal. The plans were modern in its design than many others, called for a first roof and a carefully planned layout which eliminates the old type of "cell" room. One feature of this plan is the circular stair at one corner of the house which allows more light than in the average home.

REPORT SHOWS IMPORTANCE OF MINE WORKINGS

Type of Goldfields Deposits Are New in Canadian History

GOLDFIELDS, Sept. 26—The report of Dr. F. J. Alcock's geological examination of the Athabasca area last year published in a recent issue of the Canadian Mining and Metallurgical Bulletin recently very clearly by the actual importance of the work that is being carried on in this region at the present time, not only in the Athabasca area but in the entire Canadian West. The type of deposits being uncovered in the Athabasca area is something new in the history of mining in Canada. The type of deposits being uncovered in the Athabasca area is something new in the history of mining in Canada.

The information came from the Athabasca area, and it was found that the Athabasca area was a very important area for mining. The Athabasca area was a very important area for mining.

REPORT SHOWS IMPORTANCE OF MINE WORKINGS

Type of Goldfields Deposits Are New in Canadian History

GOLDFIELDS, Sept. 26—The report of Dr. F. J. Alcock's geological examination of the Athabasca area last year published in a recent issue of the Canadian Mining and Metallurgical Bulletin recently very clearly by the actual importance of the work that is being carried on in this region at the present time, not only in the Athabasca area but in the entire Canadian West. The type of deposits being uncovered in the Athabasca area is something new in the history of mining in Canada. The type of deposits being uncovered in the Athabasca area is something new in the history of mining in Canada.

The information came from the Athabasca area, and it was found that the Athabasca area was a very important area for mining. The Athabasca area was a very important area for mining.

DUNNING SAYS HIGHER TAXES TO BE IMPOSED

**Drought in West Blamed
For Threatened New
Levies**

CHARLOTTETOWN, Sept. 26.—Most important task of the federal government was to balance the budget and the only way to do that was by increasing taxes, Hon. C. A. Dunning, minister of finance, told the Queen's County Liberal Association last night.

"You may as well face it—that means to take it out of you," said the finance minister. The budget could be balanced, he said, by cutting expenses to the bone and by increasing taxes.

Taxation had been increased and, he added, if the people wished to continue, he asked that they wait until the task is done.

DARK CLOUD CAME
The government during the last session of parliament had budgeted for a deficit of \$100,000,000—\$200,000,000 lower than the previous year. Until last year "there had been coming along not too badly" and every indication in trade had been "up."

"Then a dark cloud appeared when drought struck a section of the Canadian West, producing an unusually 200,000,000 bushels of wheat."

The blow of the drought attack would be felt not only in Western Canada but right across the Dominion, the speaker said. Finances which would have come from transportation of the wheat up to this year produced by the area affected at present was lost. Purchasing power of 200,000 people was cut off. Considerable unemployment would result besides a "destroying" effect on trade.

TERIBLE HANDICAP
The drought in Western Canada this year would be a "terrible handicap" to the people of this country, the minister declared.

Inhabitants of the stricken section required food and the situation had become so serious that it risked extending from municipalities to provincial governments and from the provincial governments to the Dominion government.

The blow had come half-way through the fiscal year, however, and perhaps before the year's end "the factors" would have offset the damage, Mr. Dunning said.

NORLAND HAS FIRST STOWAWAY

The north reports its first aerial stowaway and, despite the fact that it's a risky business, is getting a big bang out of it.

Bound to get to Goldfields from Yellowknife, an unidentified mail hid in the fuselage behind the cabin partition of a plane operated by Pilot Howard Anderson and Air Engineer Dave Bishop of Consolidated Smelters. The load was light and he was not noticed.

U.S. Navy Goes to Europe

Reflecting the serious view that United States takes of the current European political situation, Uncle Sam has decided to reconstitute his naval squadron in European waters, withdrawn in 1920.

Bear Admiral Arthur P. Fairchild (inset), has been assigned to command the squadron. The United States government declared the move is a "temporary measure." Announcement of the change in policy came after repeated threats that it was planned.

A squadron of U.S. navy battleships is pictured from the deck of the U.S.S. California, whose 14-inch guns fill the foreground.

CLERIC PLEADS FOR ELIBAC

TORONTO, Sept. 26.—Rev. Reverend John McKeown, of the Anglican Church, Hamilton, last night told a Zeland Masonic lodge gathering that "we cannot countenance a merciless pacifism that would let the mother country bear all the cost of protecting the British Empire."

"Everything we possess in this dominion is wealthy country we owe to Great Britain," he continued. "And it comes over here and Elibank to come over here and remind us of it once in a while. We need, courageous men like Lord Elibank to bring it forcibly to our attention now and then that they gave us practically everything we have."

Lord Elibank, president of the British Central Chamber of Commerce, recently toured Canada and while in Toronto made a speech relating to empire defence which drew a sharp rebuff from Hon. Ian MacKenzie, federal minister of defence.

Hungry Rodent Gnaws Finger Of Sleepy Boy

HALIFAX, Sept. 26.—When a rat gnawed his hand, five-year-old Buddy Alexander suffered a severely mangled index finger. Buddy went to bed with a piece of bread in his hand. During the night his mother was aroused by the child's screams. She found him jumping on the bed trying to shake off a huge rodent which had his jaws clamped hard on the boy's finger. It darted towards him when she switched on the light but she started it off with a stick. The attending physician said the boy's finger would be saved.

Burial Alive
LONDON, Sept. 26.—Because he feared burial alive, Albert B. Macdonald died his body not be buried until indisputable signs of decomposition set in.

SERVICE CLUB CALENDAR

Monday—Kiwanis will meet at the Macdonald hotel.

Sunday—Kiwanis will meet at the Macdonald. Lions at the King Edward. Optimists at the Macdonald.

AMES MILLER, WELL-KNOWN, DIES IN CITY

Continued from Page 1

He, his loss will soon be felt received with general regret, especially among the staff of the City Hall, where he was a general favorite in local cricket circles. Mr. Miller being one of the stalwarts of the game in Edmonton and Alberta generally.

WAS BORN CRICKETER
During his residence in the city he took a keen interest in all outdoor sports, making cricket his specialty. His first connection with cricket in Edmonton was with the Macdonald club and later he helped form the Wanderers, but for the last ten years had played with the Edmonton Cricket Club, of which he was vice president. He was also vice president of the Edmonton Cricket League. A round all round player he played against the visiting Australian eleven and other all star teams which came to Edmonton at various times.

Mr. Miller was also active in Masonic circles, and the funeral which will be held Tuesday, will be held under Masonic auspices.

In addition to relatives in the Old Country Mr. Miller leaves to mourn his loss his wife and two daughters, Hilda and Mary, all of whom are well known in the city.

The time and place of the funeral will be announced in Monday's Bulletin.

HUNTERS TAKE COLORED FILM OF WILD GAME

JASPER, Sept. 26.—A party of hunters, including C. L. Morris and P. M. Bluns, are heading south today with thousands of feet of film to shoot in the mountains in their native haunts and in their natural colors.

Beautiful birds were taken of the gorgeous fall coloring in the Rockies as the hunters, who they are each taking along fine cameras, set out to shoot. Mountain sheep, goats, caribou, deer and moose. For the past month they have been hunting way back of the town, in the same country lying north of Jasper Park.

They have been in charge of George Hargreaves, whose death in that lonely section of the country has been the subject of a number of British Columbia newspapers.

Mr. Zimmerman has hunted twice previously with George Hargreaves, whom he has known and admired for many years. In speaking of the dead game, Mr. Zimmerman said, "George was one of the finest hunters I ever met. He was a real and one of the best guides I ever hunted with."

**SARAZEN AGAIN
GOLF WINNER**

MELBOURNE, Australia, Sept. 26.—Gene Sarazen, veteran stroke golfer, has captured the cup in the 1936 Australian golf championship today with a 72-hole aggregate of 282.

**Ald. Guy Patterson
Bonnie Doon Speaker**
Taking as his subject the various forms of government now existing in different countries throughout the world and showing the trend of public thought in this matter, Guy Patterson, Ald. for the 10th ward, addressed the last regular meeting of the Bonnie Doon People's Opera Forum.

Communism, Socialism and Social Credit were touched on by the speaker, who was warmly thanked for his address.

The next meeting of the Forum will be held on Tuesday, September 28, when the speaker will be Mr. Koe who will give an address on "Technology."

Flapper Fanny.

—By Sylvia

"Oh, Fanny, I hate exercises!"
"Come on, now—even if you can't figure on your feet, you may be able to figure your figure."

Curious World —By William Ferguson

ALTHOUGH IT IS THE MOON THAT CAUSES THE TIDES, HIGH TIDE DOES NOT OCCUR WHEN THE MOON IS DIRECTLY OVER-HEAD! THE TIDES LAG BEHIND, DUE TO INTERFERENCE FROM THE EARTH'S LAND AREAS.

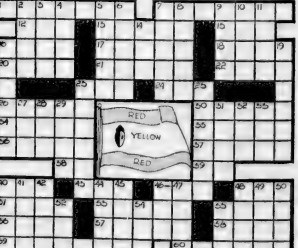

A JUMPING BEAN IS NOT A BEAN AT ALL! IT IS ONE OF THE THREE KINDS OF THE FRUIT OF SPOURGE, A PLANT OF MEXICO.

Jumping beans jump because of the presence of a caterpillar on the inside. The caterpillar jumps in order to move the bean from sun-exposed spots to shaded places. The worm is able to sense the heat, and it realizes that it is going in the wrong direction. It immediately turns in the other direction.

EDMONTON, ALTA., SEPT. 26, 1936

Maw Green

Bulletin

Service to its constantly increasing army of readers has brought wide recognition. Its news is brief and pithy, easy to read, accurate and fair, while its

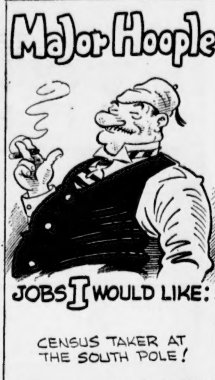

Features

excel in every department. In illustration, comics, women's activities, editorials, sports, serials and short stories, markets, finance, constant improvement has made The Bulletin

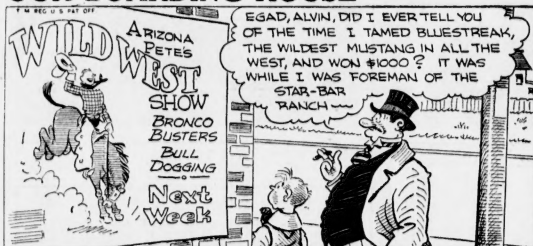

Supreme

EDMONTON, ALBERTA, Sept. 26, 1936.

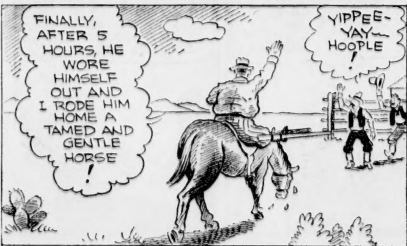

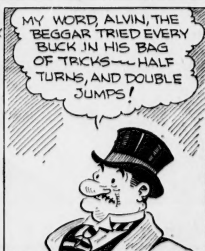

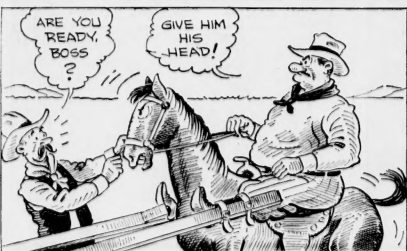

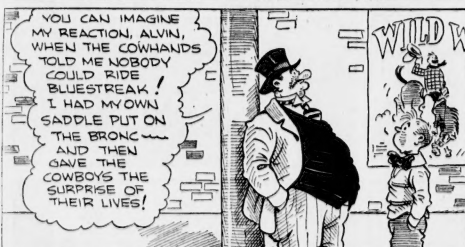

THE NUT BROS. & WAL

OUR BOARDING HOUSE

MAJOR HOOPLE

"The most thought-provoking column appearing in any paper in Canada today appears daily in The Edmonton Bulletin. The world in review; pithy comment on

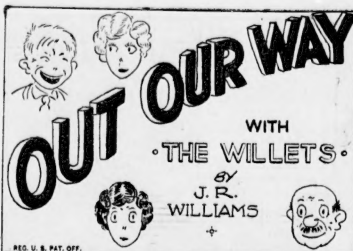

Passing

events; local, national and international topics looked at from an interesting angle. Look for it on page 4 every day. "The

Show"

THIS CURIOUS WORLD

by WILLIAM KEEFE

THE JAGUAR

THIS ANIMAL IS THE TIGER OF THE NEW WORLD, AND THE LARGEST CAT IN AMERICA / IT STILL IS PLENTIFUL IN THE DENSE FORESTS OF SOUTH AMERICA, AND RANGES AS FAR NORTH AS TEXAS.

IT ALWAYS LIVES NEAR WATER AND, UNLIKE MOST CATS, IS FAIRLY AQUATIC. IT WILL SWIM ANY RIVER THAT LIES ACROSS ITS PATH. THE CRY OF THE JAGUAR... A DEEP HOARSE COUGHING SOUND... IS HEARD MOSTLY AT NIGHT.

JAGUARS PREY UPON MOST ANY FORM OF GAME, AND ARE THE CHIEF FOE OF THE TAPIOCA. THEY TAKE A HEAVY TOLL OF CATTLE, AND CAN DRAG OFF A FULL-GROWN COW.

THEY ATTACK MAN, IF PROVOKED, AND OCCASIONALLY OLD MALES BECOME CONFIRMED "MAN-EATERS."

THE BEAUTIFUL COAT OF THE JAGUAR OFTEN IS CONFUSED WITH THAT OF THE LEOPARD, BUT THERE IS ONE TANGIBLE DIFFERENCE. THE ROSETTES ON THE JAGUAR'S SIDES HAVE CENTRAL DOTS, SELDOM FOUND ON THE COAT OF A LEOPARD.

FRECKLES AND HIS FRIENDS

By Blosser

I WONDER IF YOU'D GIVE US AN OLD APPLE BARREL THAT YA AINT USING, MR. SHULTZ?

SURE. HELP YOURSELF OUT BEHIND THE STORE!

WE'LL PICK OUT FOUR OF THE BEST BARREL STAVES, AND LET THE REST GO!!

GOT ANY OLD PIECES OF TOUGH LEATHER YA DONT WANT, MR. HEMMINGER?

LOOK IN THAT OLD BOX AND TAKE WHAT YOU WANT, BOYS!

THESE LOOK PRETTY GOOD, TAG!!

YEP! NOW ALL WE NEED IS ABOUT FOUR OLD BROOM-STICKS AND SOME SMALL WAGON WHEELS!

WE'LL SHAVE DOWN THESE BROOM-STICKS AND STICK THEM INTO THE WHEEL HUBS AND WE'LL BE ALL SET!

BOY, I CAN HARDLY WAIT TO GET GOING!

SAME HERE, OSSIE!

HOW LONG HAVE WE BEEN HERE?

ABOUT TWO HOURS! MAYBE YOU BETTER READ THAT ARTICLE AGAIN!

ACCORDING TO PRESENT INDICATIONS, AN EARLY WINTER IS PREDICTED, WITH UNUSUALLY HEAVY SNOW, STORMS!

THAT JUST GOES TO SHOW YA, TAG... A GUY DONT DARE HAVE ANY FAITH IN THESE DOGGONE WEATHER PROPHEETS!!
